CALENDAR.

A bill to amend chap. 107, Laws of 1874-'75, so far as it relates to the town of Lagrange, Lenoir county, passed its several readings and was ordered to be engrossed.

IMPORTANT TO THE WEST.

Mr. Taylor called up, under a suspension of the rules, the bill to prohibit the driving of beef cattle from South Carolina into counties west of the Blue Ridge. The bill proposes to protect the cattle of the transmontane counties from the diseased cattle of South Carolina and other Southern States. The question was to concur in the House amendments, and the Senate concurred, and the bill was ordered to be enrolled.

Mr. Redwine moved to reconsider the vote by which passed on yesterday the bill to prevent fishing in certain streams under certain circumstances Agreed to.

Mr. Redwine now moved to exempt the Yadkin river from the operation of the act. Agreed to, and the bill again passed.

Mr. Nicholson at a latter stage of the proceedings—a snap-judgment, as he seemed to think, having been taken upon the friends of the bill in their absence by Mr. Redwine—moved a reconsideration of the vote but withdrew the motion by request, as his purpose could be effected in the House.

THE BELL PUNCH.

The Senate bill reported from the select committee on the subject, to regulate the sale of liquor in this State, on the principle of the Moffitt Bell Punch, being the special order was now taken up.

The bill provides that the granting of license shall be let to the discretion of a majority of the Board of County Commissioners of the several counties, with right of appeal; in case of refusal, to the Judge of the Judicial District in which a county may be situated, to be heard in term time of vacation, the license to be for twelve months. Persons proposing to sell five gallons or more at a time to be considered wholesale dealers, and pay a tax to the Sheriff of $200. For quantities of one gallon or more, $100 for a wholesale and retail license, and 25 cents on one gallon and 10 cents on each gallon in excess of one gallon less person shall not be required to pay the gallon tax on liquors sold for transportation and consumption beyond the limits of the State. For quantities not exceeding five gallons at one time, the seller shall be licensed as a retail dealer, the liquor not to be drank in the place where sold or without the curtilage thereof, but delivered in bottles, jugs, demijohns or other vessels to be removed therefrom; the cost of this license being $50 "in the county or towns" of less than 2,000 inhabitants, or $100 "if in towns" of over 2,000 inhabitants. Persons selling wine, ardent spirits, malt liquors or mixtures thereof, to be drank on the place, shall be licensed as a bar room dealer, and such liquor shall be drank in the place, and not removed therefrom. He shall pay the same as retail dealers as above. Separate licenses are to be taken out for the various manners of business. Each bar room dealer shall pay, in addition to his license tax, a tax of one cent on each drink sold at five cents or less, two cents on drinks sold for more than five cents and not more than ten, and one cent on each additional five cents or fractional part thereof charged for such drink. Each retail dealer shall pay, in addition to his license tax 2½ cents upon each half pint or fractional part thereof of any description of liquor sold by him; and on quantities greater than one half and not more than one pint, five cents; on more than one pint and not exceeding one and a half pints, seven and a half cents more than one and a half and not exceeding two pints, ten cents; four pints, twenty cents; one gallon, forty cents. The remainder of the bill pertains to the machinery of the proposed act.

The bill was considered by sections. Sections 1, 2 and 3 were agreed to.

Section 4 Mr. Ormon moved to amend by making the wholesale license $5 instead of $200, and the retail license $5 instead of $100. Rejected.

Mr. Respass moved to make the same licenses $25 instead of $200, and $10 instead of $100 respectively, and the retail dealers license $5 in lieu of $50, and $25 in lieu of $100. Rejected.

The remaining sections of the bill were then agreed to.

The question now being on the second reading of the bill as a whole.

Mr. Ormand moved to attend section 16 by making the maximum compensation of the Sheriff of each county for his services under the proposed act $500 instead of $200, as proposed by the bill. Rejected.

Mr. Snow opposed the bill.

Mr. Respass was opposed to the bill. He cautioned Democratic Senators against its passage, and predicted, in the event of its being adopted, that their seats would next session be filled with Republicans, accompanied by all the dire effects of former years. He considered, too, that the bill infringed upon the privileges of the poor man.

Mr. Everelt asked Mr Respass if his platform was "free whisky and free tobacco."

Mr. Respass (at his full height) "My platform is Free Trade and Sailors Rights." [Laughter and applause.] Mr. Respass denounced the bill as infamous, and would result in injury to the Democratic party and the country.

Mr. Lyon moved to amend by reducing the wholesale house to $100, and the wholesale and retail house to $50. Rejected.

Mr. Bull, who had charge of the bill, advocated its passage. It was a modification, he said, of the Virginia bill, and had been carefully considered by the committee. He did not think the proposed law would result in more litigation than the present system.

Mr Everett moved a substitute for the bill, providing that the county commissioners be empowered to grant licences to sell spirituous liquors, under present restrictions, on payment of the following privilege taxes: For five gallons or more at any one time, $350; one gallon or more, $450: not exceeding five gallons at any one time; if in the county or town of not less than 2 000 inhabitants, $100; if in towns of over 5,000 inhabitants, $500. The substitute provided, too, that one half of the money raised by this act be appropriated to the public debt, the other to the public school fund.

Mr. Dortch drew attention to the fact that a bill had passed to settle the State debt which would require an addition to the taxes of some $160,000. How was that to be raised. From the farmer and the laboring men of the country, or from the trades and professions? He was opposed to further burdens upon the laboring men of the State. The required additional revenue must come from the trades and professions. That was the whole matter, and there was no party in question. In reference to the pending bill, he said he had not read it, but he was in favor of the principle and would vote for the bill.

Mr. Everett's substitute was rejected by a vote of 38 to 6, and then the question was on the passage of the bill, and it failed to pass by a vote of 24 to 21.

THE STATE DEBT.

Bill to compromise, commute and settle the debt of the State, made special order, came up on its third reading. This bill was discussed at great length yesterday, and passed its second reading then by a vote of 91 to 19. Mr. Mebane moved to amend the bill so as to subject the bonds to taxation, and spoke in favor of this view. Mr. Norment opposed the amendment, thinking it neither possible or proper. Mr. Vaughan said the bonds could be made taxable, and favored the amendment, as did Mr. Amis. Mr. Moring said the proposition was absurd, for the old bonds were on their face non-taxable. What State would thus wish to leavy a tax upon its own indebtedness. If the tax is imposed the bonds will be driven from the State, while it is desirable that they be held by our own people. The coupons of the bonds will become a circulating medium. By imposing a tax it will work manifest injustice. Mr. Turner opposed the whole bill. Mr. Blocker opposed the amendment, because it would be a violation of an honest contract with the holders of the old bonds, and particularly so after scaling down the sum due so greatly as the bill provides. Mr. Cooke made a speech of some length, paying attentions to Mr. Turner. Mr. Atkinson raised his voice against the bill, just as he did yesterday. Mr. Lockhart said yesterday he voted aye, but to-day he would fall back from his position and vote no. That in voting for the bill he voted against every feeling of his nature, as a matter of judgment. That he had naturally considered the matter and his judgment was now in accord with his feelings and he should vote against the bill.

Mr. Lewis opposed the bill. He had no fear that the State would ever become subject to suit nor did he fear that hereafter it would be impossible to compromise the debt.

Mr. Covington spoke in favor of the bill. He thought the honor of the State demanded the passage of the bill

Mr. Blaisdell thought it a great wrong to thus cast aside a just obligation, and degrade the State by the loss of her credit.

Mr. Reynolds favored the bill. The colored people would unite in contributing to this grand design to liquidate the State's indebtedness, and elevate her credit and honor to the high plane they once were on.

The vote then recurred on the amendment, and upon this the ayes and nays were called, when it failed to pass, by a vote of ayes 51, nays 58.

An amendment was made by Mr. York, that this act shall not interfere with the school fund of the State. This was lost, by a vote of 47 ayes to 48 nays.

The vote then recurred upon the passage of the bill on its third and final reading, when it passed by the following vote:

AYES—Messrs. Angier, Ardrey, Armstrong, Bateman, Bernard, Bizzell, Blaisdell, Blalock, Blocker, Bost, Brown, of Mecklenburg, Brown, of Yadkin, Buchan, Burroughs, Carter, of Buncombe, Carter, of Yancey, Carroll, Clarke, Cobb, Colwell, Cooke, Covington, Davis, of Catawba, Davis, of Haywood, Davis, of Madison, Deans, Dixon, Dunn, Ellison, English, Everidge, Ferrell, Foard, Forbes, Gatling, Grant, Harrison, Hewett, Hines, Holt, Horton, Huffstetler, Jones, Johnson, Lamb, Leatherwood, Lowry, Meares, Moore, McGehee, McLean, Norment, Oliver, Orchard, Osborne, Powers, Rawley, Reid, of Macon, Reid, of McDowell, Reynolds, Roberson, Scott, Smith, Taylor, Venable, Wheeler, White, Woodhouse, Young—69.

NAYS—Messrs. Amis, Anderson, Atkinson, Barringer, Battle, Berry, Bingham, Bird, Bonner, Bruce, Bryson, Cale, Carter, of Warren, Carson, Cary, Chadwick, Christmas, Click, Coffield, Council, Dimsdale, Ewing, Foster, Foy, Goldston, Harrell, Henderson, Hobbs, Leach, Lewis, Lindsay, Lockhart, Mebane, Melson, Miller, McCorkle, Newell, Paxton, Pettipher, Richardson, of Columbus, Richardson, of Wake, Ritchey, Turner, Vaughan, Wimberly, Wynn, York—48.

Mr. Cooke moved to reconsider the vote by which the bill passed its final reading and to table that motion. This was adopted, on a call of the ayes and nays, by a vote of 68 to 46, thus putting a period to the subject.

Mr. Vaughan on the part of the minority offered a protest against the passage of the bill.

At 1:45 the House adjourned.

We are informed that the Salem Agricultural and Iron Works, Salem, N. C. are manufacturing improved Brick Machines, capable of making from 8,000 to 10,000 per day, at about half the cost of ordinary hand made brick. They also manufacture superior circular saw mills, which are said to be among the best made. Parties in need of either a brick machine or saw mill, would do well to correspond with these works before they buy.

One of the Wisest Measures.

Charlotte Observer.

Capt. Alexander's bill for levying, equalizing and collecting taxes is one of the wisest measures that has been brought before the General Assembly and will institute reforms where they are needed. We very much hope that the General Assembly will act favorably upon the bill.

At an auction sale of Scranton coal in New York, yesterday, 100,000 tons were sold as follows: Seven thousand tons chestnuts at 2 40a 2 42½a $2 45; 25 000 tons grate at 2 25a2 27½a$3 30; 6 000 tons steamboat at $2 25, 20,000 tons egg at 2 25a2 27½a$2 50; 42,000 tons of stove at 2 60a2 62½a2 65a$2 67½. There was a large attendance and bidding was spirited. Result showed a decline in all grades except chestnut. Prices compare with last month's sale as follows: Steamer, February, $2.25, January, $2 35; grate, February, 2 25a$2 30, January, 230a$3 40; egg, February, 2 25a$2 20, January, 2 30a$2 40; stove, February, 2 60a$267½ January, $2 75; chestnut, February, 2 40a$2 45; January, 2 35a$2 40;

Sets Himself Right.

RALEIGH, N. C., Feb. 28th.

EDITOR OF THE NEWS:—My attention has been drawn to an article in the New York Times in which it is stated that myself with a number of other members of the General Assembly of 1876-'77 received pay for conveying to the capitol, the election returns for our respective counties, while at the same time we were entitled to our diem mileage as members of the General Assembly. I also drew from the Treasury whatever the Sheriff of Alleghany county was entitled to receive for holding and making returns of presidential election in 1876, the entire amount of which I accounted to the Sheriff of Alleghany county, what I did was merely a favor for the Sheriff of my county,

Respectfully,
E. S. VAUGHAN.

The following is the article alluded to by Mr. Vaughan.

"RALEIGH, Feb. 26.—It has just been discovered by a portion of the public that ten persons who were members of the Legislature elected in 1876, were guilty of drawing money twice from the State Treasury when they were entitled to draw only once. The way in which the State was robbed was as follows: James L. Robinson, who was then a Senator; G. S. Furgerson, who was also a Senator; E. L. Vaughan, R. McBrayer, Edward Ransom, Van V. Richardson, W. R. Terry, A. C. Sharpe, W. G. Morris, and H. E. Baxter, all Democrats except Terry, who were members of the House of Representatives in 1876, were appointed deputies by the sheriffs of their respective counties. The Legislature met on the third Monday of November, 1876. When these ten members came to Raleigh to attend the session of the Legislature they brought the election returns of their respective counties, and delivered them to the Secretary of State as deputy sheriffs. The amount thus wrongfully obtained, and for which there is no authority in law, is six hundred and thirty-four dollars and sixty cents. A committee of three Democrats and one Republican examined the vouchers in the Treasury's office, and detected this illegal use of of the public money. The matter was referred to in the committee's report as first drawn, but through Robinson's influence it was stricken out. In November, 1876, Robinson was elected President of the Senate. He is now Lieutenant Governor and presides over the Senate. E. L. Vaughan is Speaker, temporarily, of the House. Van. V. Richardson was a prominent candidate for Speaker of the House, and is now Chairman of the Finance Committee. The other persons mentioned are [not members of the present Legislature, but are no doubt at home acting as Deputy Sheriffs."

AN INGENIOUS RUSE.

The Story of a Lady's Wonderful Nerve.

A correspondent of the Hartford Times says: "Mrs. Isadore Middleton, a very beautiful woman, and one of the acknowledged leaders of fashion in Mobile can certainly boast of the possession of as much nerve and true moral courage as are often vouchsafed to any of her sex.

"She was putting away some articles of jewelry, when she noticed that the peculiar position of a library lamp that was burning upon a chair in the back part of the room had thrown upon the floor, almost directly at her feet, the shadow of a man who was crouching under a broad topped ornamented table in the centre of the room.

"She also remarked that the open hand of the shadow had but two fingers, and remembered that several desperate burglaries had recently been committed in the neighborhood, suppositiously by a negro desperado, who was notorious as having lost two fingers of his right hand.

"Mr. Middleton was absent from the city, and besides herself in the house, there was but a single maid-servant. Instead of fainting with fear, or shrieking for help, the brave lady seated herself at the very table underneath which the miscreant was concealed and rang for the servant.

"'Hand me writing materials, Bridget,' said she, with perfect calmness, 'I want you to take a note this instant to Mr. Forfair, the jeweler, and have him send you back with my diamond necklace and eardrops which I left there for repairs several days ago. Bring them with you, no matter if fully repaired or not. They are by twenty-fold the most valuable articles of jewelry that I possess, and I do not wish to pass another night without having them in a bureau drawer.'

"The note was at once written and dispatched, but instead of being in the tenor that she had signified (on purpose for the concealed robber to overhear, for she had no jewelry under repair), it was a hasty note to the jeweler, an intimate friend in which she succinctly stated her terrible position, and urged him to hasten to her relief, with the requisite police assistance, immediately on receipt of the missive.

"The agonies which that refined and delicate woman underwent when left alone in the house with the consciousness of the presence of that desperate robber, perhaps assassin as well, crouched under the very table upon which she leaned, and perhaps touched by her skirts, can only be left to the reader's imagination; but her iron nerve sustained her through the ordeal. She yawned, hummed an opera in air, turned over the leaves of a novel, and in other ways lulled the lurker into a sense of perfect security and expectancy, and waited, waited with a wildly beating heart, and her eyes fastened upon the hands of her little ormulu clock with a greedy, feverish gaze.

"At last, however, came the prayed for relief. There was a ring at the door bell, and she strolled carelessly in to the hall and down stairs to open it. The ruse had been a success. She not only admitted Bridget, but also Mr. Forfair and three stalwart policemen. The latter passed stealthily up stairs in the boudoir, where they suddenly pounced upon the concealed burglar so unexpectedly as to secure him with hardly a struggle.

"The prisoner proved to be a negro criminal named Clapman, but more widely known as 'Two Fingered Jeff,' who was in great request about that time for several robberies committed in the neighborhood a short time before, and he is now serving a twenty years' sentence in the Alabama State prison."

SATURDAY, MARCH 1 1879.

HUSSEY & JORDAN, Prop's.

JOHN B. HUSSEY, - Editor.

Our 15th., Volume.

With this number the NEWS enters upon its eighth year and 15th volume. It can say in the language of one of old, "hitherto hath God helped us." Thanking our generous patrons for their long continued and very liberal support the NEWS has no new pledges to make. It was, is, and ever shall be, the fearless tribune of the people. It was is and ever shall be the opponent of monopolies and rings, and of special privileges to the few at the expense of the many.

Some times the fight has seemed weary but looking at what we have accomplished the NEWS, like St. Paul at the Three Taverns, has cause to be thankful and take fresh courage.

An undying enemy of radicalism, the suits pending against the NEWS, as well as those already won, for libel shows that it has made its blows felt.

As a purveyor of the latest news the paper will continue to be abrest of the foremost.

To each and all of its State contemporaries it extends on this, its anniversary, its best wishes for their prosperity and returns its thanks for many courtesies received from them, of which it wishes that it had been more deserving.

The Sacred Mud of "Mud-Cut."

"Mud-cut" is a deep cut not only into the mountain side but into the State Treasury.

It takes annually one-third of the whole sum paid into the State Treasury.

Its friends not only are not satisfied with its mortgage on the State Treasury but recently decreed that one of its friends, the Cornfields Railroad should have a fourth of the public fund besides.

The soil of "mud cut" is necessarily sacred. It is consecrated by the sweat and toil of hundreds of thousands of North Carolinians whose hard earnings are poured in there to cut a wide pathway to wealth for a few and to make foundation for the political promotion of the compact, well-defined, inner circle. It is sacred moreover because it will be the burying place of many aspiring politicians and burying grounds are always sacred.

In the presence of the mighty "mud-cut" we are told, "Put off thy shoes from off thy feet, for the ground thou standest upon is holy."'

Those who did not pay due reverence have been refused charters for railroads to be built with their own money, while the company whose discriminating president was appointed an expert to view 'mud-cut' and returned with a report more glorious than that brought back by Caleb and his brethren who returned with the grapes of Eshcol, was rewarded by a bestowal of $50,000 in cash and $74,000 more during the year to feed convicts.

It has been asserted that the $850,000 of mortgage bonds do not now be worth $3,000,000. If so why did the road sell for $200,000 at public sale not long since, and if it is worth $3,000,000 why not mortgage the $2,150,000 for enough to complete the road and not mortgage the tax-payers to do it.

This point needs an intelligent reply to satisfy the public.

"Mudcut" is a huge thing. It has absorbed thousands upon thousands of dollars.. It will be a wide ditch for those running a political road to cross. It will ere long be fuller of corpses than that celebrated place which Governor Vance said was so full that the legs would stick out the windows.

Old soldiers will remember that railway cuts were especially dangerous places and that the dead always lay thickest there. The poor fellows went there for shelter and—died.

The "Mudcut" is the "Medina" and "Mecca" of some legislators. All legislation has value solely in regard to its relative position to, and bearing upon "Mudcut."

It has been suggested that the only mode in which people desirous of having railroads chartered in other portions of the State, but who do not ask money out of the Treasury to build it for them, are likely to procure the support of some men is to borrow a few car loads from "Mudcut" and scatter the sacred mud along the line of their proposed track.

A committee was recently sent by the Legislature to view the "cut."

The committee, doubtless filled a very able report. A correspondent reviews it in another column. The leading idea of the committee seems to have been that the more mud cuts to the mile the better. Their idea is like that of a well known engineer, who said that the larger the cost of a railroad the better for the stockholders as they would get dividends on a larger amount.

A CONSIDERABLE portion of Chinese immigration is women; not wives, mothers, sisters and daughters, who come to America to establish virtuous homes, but women who sell themselves in advance of shipment from China, to one, two or half a dozen degraded men for prostitution. All, or very nearly all, the Chinese women who come here are of this class. Is it in the interest of morality to let this vile stream flow to our shores? Will Mr. Hayes interpose his veto in the interest of such immigration?

THERE is so much 'higher education' among Boston women that she who is unable to dream in Sanscrit and rock the cradle in Attic Greek is promptly re'egated to *hoi polloi*.

ONLY the presentation of careful statistics can give casual observers any conception of the great loss caused by fires in years in which the country escapes all especially severe visitations. An insurance journal has prepared such statistics, and they show that in the four years 1875, 1876, 1877 and 1878, fires in the United States burned property worth $275,314 585, the loss in each year being as follows: 1875, $78 102,285; 1876, $64 630,600; 1877, $68,265,800; 1878, $64,315,900. Of this total loss, $147,674,700 fell on insurance companies; the rest was sustained by property owners. It is safe to say that if the value of this burned property had been applied to withstand fires, a large part of the money would have been saved. Cheap buildings are never cheap when the precautions necessary to their preservation are neglected

IN THE report of the Senate proceedings in regard to the Criminal Circuit it was stated that Mr. Moye allowed Pitt county to be put in the Bill with the proviso that the Board of County Commissioner should assent. The reporter made a mistake. The proviso left it to the Board of Justices of the Peace of Pitt county and not to the County Commissioners.

No county has in the Senate a more faithful representative in the interests of his people than the gallant Senator from Pitt.

LEVEL HEADED.—Says the editor of the Charlotte Democrat, "repeal the Act granting money to the Western N. C. Railroad, and stop the appropriations for new and magnificent charitable institutions until our individual and public debts are compromised or paid, and no more lands will soon be sold for taxes.

Legislators had better be honest and just before they are "charitable" in the way of appropriations."

CANADA kindly proposes to use her influence with the home government to secure the rescinding of the order restricting the cattle trade if we will endeavor to "prevent the spread" of the cattle disease. We are delighted at this and other evidences of a good feeling on the part of the Kanucks, but it might occur to them that we have every possible interest in preserving the health of our live stock on our own account.

IT is confidently believed by gentlemen of large experience, whose recollections extend far backward towards the early and better days of the Republic that the world would not be jarred from its orbit, nor the perpetuity of the American Union be seriously menaced, even if the Radicals in Congress should force an extra session. The serenity of Mr. Hayes might be somewhat disturbed, but his disgruntlement could not be developed into a National calamity.

The French government has found time to make a change in the military colors of France. Louis Napoleon restored the eagle with the monarchy, but when the empire fell at Sedan it was dropped. The new French colors laurels, traversed by a golden dart, the letters 'R. F.," the regimental numbers in bronze, In the middle of the tri-color are the words "Republique Francaise—Honeur et Patrie."

THE Judges of the United States Supreme Court are rather sour over the enactment of the law allowing women to appear in their awful presence as attorneys, and one of them the other evening told some ladies who were quizzing him about it, that they intended to turn their consulting room into a nursery, where women who wanted to argue cases before them could leave their babies.

Low Taxes and High Privileges

This is the platform of the NEWS and is what the people expect of the democratic party.

Put upon the people not one cent of taxation not absolutely necessary for the purposes of government and the care of our charitable institutions.

Give them every liberty and freedom consistent with the public good.

Repeal the railroad subsidies and save the tax-payers $300 000 annually.

WITH one voice the religious people of the Pacific slope call on Mr. Hayes not to interpose his veto of the Chinese bill. They demand a cessation of the stream of vileness and loathsome degradation that is flowing from Asia. Will Mr. Hayes deny to the majority in Congress the opportunity of checking this inflow of all that is execrable?

AFGHAN fanatics who attempt to assassinate English officers are, if caught, promptly shot and then burned. This latter process prevents them from going to Heaven, which is their chief object in killing Englishmen. This treatment will, it is thought, moderate the patriotic enthusiasm of the children of the Ameer.

SOUTH CAROLINA has at least one officially proved case of political intimidation, but two Republican colored brothers are the sinners. They burned a Democratic negro's barn. A jury of eight Democrats and four Republicans agreed that politics caused the fire, and life imprisonment is the penalty.

THE Kansas House of Representatives by a vote of eighty-seven to ten has declared that it is in favor of the "double standard" of gold and silver. By a vote of fifty-seven to forty-three it has passed a resolution in favor of abolishing the national banks and substituting greenbacks for bank notes.

IT is suggested that the walking mania will be a good thing for the corn crops.

THE Republican idea of senatorial dignity was finely illustrated in the refusal to receive a telegram from the the Constitutional convention of California. Had Mr. Edmunds failed in this effort, he would have had sad forebodings of a dreary future for the Republic.

IF the bill limiting the expense of contesting seats in Congress to one thousand dollars become a law it will destroy a rather profitable industry at Washington. Under the present system a contestant, if he does not get the seat, is pretty certain to get the salary.

THE Independent Republican papers are talking about a possible third party ticket in 1880, in case the two regular candidates put forward are Tilden and Grant. Will the New York Tribune, as in 1872, head the Republican opposition to Grantism?

THE constitution which members are sworn to observe makes it imperative to establish an orphan asylum for poor and destitute orphans left by overworked tax payers. Has it been done? No. And the living tax-payers are being made still poorer to give large subsidies to railroad corporations.

How Not To Do It.

Correspondence of the NEWS.

This has been reduced to a fine art by the Assembled wisdom. If you wish to observe all the forms of the utmost caution and deliberation in regard to a subject of which it is important to have as little known as possible, move to appoint a legislative committee of investigation. The most eminent of "modern instances" is furnished by legislative document No. 37. It is a curiosity in its way. It is styled a "Report of the committee of investigation of the Western North Carolina Rail Road &c."

The legislature has existed, lived, moved and had its being, for the last ten years, mainly for the purpose of continuing the splendid experiment of *not* building a rail road across the Blue Ridge, at a cost of some indefinite millions of money, drawn out of a bankrupt treasury, replenished with the utmost difficulty from the diminishing resources of an impoverished people.

Very naturally people begin to inquire when this thing is to end. The more money and convicts are sent to that maelstrom of the Blue Ridge, the more money and convicts are needed. It is a case of too much horse leech and too much daughters. Instead of the scriptural three, it is about three hundred; and to do justice to the resonant hugeness of their refrain, give. It give, would require a whole band of calliopes, run by at least half a dozen of Major Wilson's new 30-ton engines. The tax payers want to know how much more it is going to cost to get to Buncombe and Ducktown. The Legislature very considerately and loyally sets about to gratify this not unnatural curiosity. So of course it appoints a "committee of investigation." Let no one consider now that a "committee of investigation" means a committee to investigate; it would indeed be to consider too curiously to consider so." That would not adequately illustrate the fine art of "How not to do it," which furnishes so much instructive entertainment to the "honest yeomanry" and the "hard handed sons of toil" and all that.

Well, this committee;—it consists of "grave and reverend seniors," of course refuge of men and affairs! Oh yes, there is the almost venerable chairman, who has been a member of the legislature ever since he was a boy, and has made and run many a rail road and thinks nothing of half a dozen "mud cuts" to the mile. And as to the other members of the committee, ditto, at least.

The committee had full power, and were furnished with an expert, to aid in discovering whatever might by possibility escape the argus eyes of the three fully empowered vigilants. Their business was to "thoroughly examine and investigate," not to stop with a mere examination, they were also to proceed a stage further and *investigate*, get at the bottom facts, however disposed to dodge and hide themselves in mud cuts and slides and tunnels and things, they were to search-warrant them "out of that,"—no halt way business,—"examine and investigate the work now in progress on said works," (the Western Insane Asylum and the Western North Carolina Railroad.)—how the same is being done, the management of convicts, &c,—and report to this General Assembly as early as practicable all the information of any kind whatever which said committee shall deem necessary to a full and complete understanding of all the operations of said works." Ample scope and verge enough" one would think.

Well, the result? A document of 75 pages is the net result, of which about seven pages, three pages by the committee and four by the expert, contain "information of any kind whatever" "necessary to a full and complete understanding of the operations" of the Western N. C. Railroad, the chief matter in hand. The information communicated in those important three pages, is, 1st "that while it is 3 miles from Henry to the top of the Blue Ridge, in a direct line, the line of the road between these two points is 9¼ miles," shown by a "rough diagram," (which makes it over 200), which is very new and important! "that the progress of the work has been greatly delayed by frequent land slides," which the committee, 'regret to say are constantly occurring;' evidently land slides are no respecters of legislative persons, or they would have desisted at once, and a resolution should have been passed on the spot to that effect: 3rd that, these said land slides "greatly retard the immediate completion of the road to Asheville;" most likely, inasmuch as it was to have been there long ago; while, 4th "the committee decline to express any opinion as to the probable length of time required to complete the road to Asheville;" very prudently, no doubt; 5th "the State has purchased this road &c, for the sum of $850,000," which the State probably knows, "and it would seem to be bad policy to let it remain in its present incomplete state," which is the very thing it wants to know, mightily just now; "whether 'tis better to bear the ills we have, or fly," to other mudcuts that we know not of; 5th, "this road is one of great benefit to the people of western N.C.," of course, they can get Ohio bacon cheaper now and Chicago hay, and the "cast iron" pomologist will soon be able to sell fresh New York apples in the streets of Asheville; "and its value will be greatly enhanced by its completion;" and the committee leave the legislative and other public to dig that out without even intimating the grounds of so strange an opinion; and 7th, and lastly, "all of the present (couldn't their broad mantle have covered also the past) officers and subordinates of the road perform their duties satisfactorily;" of course; that is because they are so far from the seductions of the capital, and so nearly "transmontane." And, "friends, country-men and lovers," it is to the demonstration of this lastly that the committee devote the whole of this vast report except the above 7 pages, as specified, and diagram. Of course the legislature believed before, as well as the public generally that "they are all honorable men," and glad to have it confirmed; but what the legislature and the public hunger to know, yea agonized to discover, and awaited with all patience and hope the report of the distinguished and experienced "investigators" to ascertain, is, "the information necessary to a full and complete understanding of the operations of said works. Are the bottom facts so deep buried at the bottom of mud cuts and tunnels and land slides that the committee found, with so much unavailing regret, to be" constantly occurring, 'that no fellow could find out any thing about them, not ever a fully empowered and experienced Legislative investigator, assisted by an expert, but, the expert no doubt He will answer, he will tell us, of the mud cuts what he knows; yes; the first thing he finds to say is healthy. "The progess of the work has been delayed to a very great extent by slides that have occured at several points on the line, viz; Mud Cut, Moore's Cut, a deep cut near Lick Log Tunnel and one about half a mile east of Swannanoa Tunnel". And he goes on to tell about the "almost insurmountable difficulties"—; not quite then, that's hopeful; the thing may be done, with convicts enough and money enough and time enough. But don't he give us (what the wise committee "decline" to give the conclusions of their wisdom on) the figures as to the how much and how long. &c.? Hear him, "without some accident or other unforeseen occurrence;"—such as the 'accident" of a slide, of course, or the "unforeseen occurrence" of another slice of the mountain tumbling into Mud Cut, which of course it wont, until this one is taken out of its way; —Well it's considerate of them not to come all at once,—we don't have to climb that second hill then until we get over this one. If we had all the hills along the road to cross at one, they would indeed be, to draw it mild, "almost unsurmountable;" but what was Jones about to say if no "unforseen occurrence" occurs, (as the committee says the miserable thing is "constantly" doing, what then). Why, "this tunnel (Swannanoa) ought to be completed between the months of July and October," and he is so considerate, Jones is, of our legislative and other feelings, that he does not leave us in doubt as to which "July and October he means; he knows how many anxious and disappointed Julys and Octobers we have already had, and he adds for our pacification, "of the present year." But he proceeds to set us adrift again on a sea of troublous doubts, by adding, "the only fear of delay," that is beyond "July and October,' "is that slides may take place in the cuts during the progress of the work,' as they have been constantly doing for the whole two years, "and even after the completion of it".

"Oh, Jimmy Thompson, Jimmy Thompson, eh."

Oh, L. C. Jonesy, L. C. Jonesy, oh! "Miserable comforters are ye all." *Quis jam locus, quae regio in terris* (alae Rodjis) *nostri non plena laboris!* Four of these awful cuts and tunnels and things, in about two miles, is it, Jones?—all misbehaving 'constantly", perversely and feloniously.

But Jones says, in a sentence, and a sad paragraph,—it should have been a whole page,—all by itself.

"The President of the Company regrets would be some comfort in that, for "Hope springs eternal in the human breas," in spite of mud cuts and slides, &c., but for the recollection that Jas. W. is a sanguine man, who always thinks "some things can be done as well as others," when everybody knows they can't, when it's mud cuts Jas. W. was sure the Blue Ridge would have been sealed a year ago last January; but when so many "unfortunate occurrences" "constantly occurred," he moved it to July or August at farthest,—would not even accept the Jones amendment of the alternative "October", and at last accounts he obstinately insisted on January last past, (and no allowance for "accidents" or "unforeseen occurrences"), as the latest post quod; and now, according to the attenuate and recent Jones, he "expects to complete it sooner" as aforesaid. Well, there is nothing like stick-to-it-iveness, especially in a case of "mud-cut."

But then, didn't we want to know, before taxing ourselves another half million, something about the remainder of the Western N. C, R. R.? Is the whole thing concentred in the fatal and eternal Blue Ridge tunnels and cuts? It seems the committee stuck there, and Jones. But what of the 50 odd miles down the French Broad, &c.

WE SHALL SEE.

Retrenchment.

Elizabeth City Economist.

Retrenchment is now the leading idea on the legislative and popular mind in North Carolina. It is not a bad idea now. The people of the State are constitutionally conservative and cautious. They are slow to make changes, and this characteristic is very manifest in the public acts of the present time. The State is heavily involved in debt. The people are grievously burdened with taxation. The State has the means of paying its indebtedness Directly; by increasing the people's burden of taxation. Indirectly by reducing the pay of public officials and the current expenses of conducting the State government. To discharge the debt, when the debtor is able to do it, is a moral and, we suppose, must also be a legal necessity. It will have to be paid in some way, either by a sacrifice of material interest or a sacrifice of honor and consequent material prosperity. How can it best be done? Fortunately, for our guidance, the condition of the State has been the condition of its citizens, since the organization of the government. At no time within its existence has the State been without many and some of its wisest citizens solving the problem, how to get clear of debt and hold on to property. It is no new lesson. It is an old subject and has probably been studied closer than any other practical question in human affairs. In the case of individuals one way out of the difficulty always suggests itself. That way is by reducing expenses in every practical and judicious mode. It is a way, plain and simple and easily understood. It is the only way in which North Carolina can relieve herself of the burden that is weighing her down.

It is by reducing the number of offices and the number of officers. It is by reducing the compensation for public service. It is by greater diligence and greater vigilance.

Apply these simple, practical every day rules, to the machinery of government. What offices can be entirely or even temporarily dispensed with?

Vegetine

FOR

CHILLS, SHAKES,

FEVER AND AGUE.

TARBORO, N. C., 1878.

DR. H. R. STEVENS:—

Der Sir,—I feel very grateful for what your valuable medicine, Vegetine, has done in my family. I wish to express my thanks by informing you of the wonderful cure of my son; also, to let you know that Vegetine is the best medicine I ever saw for Chills, Shakes, Fever and Ague. My son was sick with measles in 1873, which left him with Hip-joint disease. My son suffered a great deal of pain, all of the time; the pain was so great he did nothing but cry. The doctors did not help him a particle, he could not lift his foot from the floor, he could not move without crutches. I read your advertisement in the "Louisville Courier-Journal," that Vegetine was a great Blood Purifier and Blood Food. I tried one bottle, which was a great benefit. He kept on with the medicine, gradually gaining. He has taken eighteen bottles in all, and he is completely restored to health, walks without crutches or cane. He is twenty years of age. I have a young person, fifteen years of age, who is subject to chills. When ever he feels one coming on, he comes in, takes a dose of Vegetine and that is the last of the Chill. Vegetine leaves no bad effect upon the system like the most of the medicines recommended for Chills. I cheerfully recommend Vegetine for such complaints. I think it is the greatest medicine in the world.

Respectfully, MRS. J. W. LLOYD.

VEGETINE—When the blood becomes lifeless and stagnant, either from change of weather or of climate, want of exercise, irregular diet, or from any other cause, the Vegetine will renew the blood, carry off the putrid humors, cleanse the stomach, regulate the bowels, and impart a tone of vigor to the whole body.

Dear Sir,—I have used your Vegetine for Nervous Headache, and also for Rheumatism, and have found relief from both and take great pleasure in recommending it to all who may be likewise afflicted,

VEGETINE

Druggists' Testimony.

Mr. H. R. Stevens:—

Dear Sir,—We have been selling your remedy, the Vegetine for about three years, and take pleasure in recommending it to our customers, and in no instance where a blood purifier would reach the case, has it ever failed to effect a cure, to our knowledge. It certainly is the ne plus ultra of renovators.

Respectfully,

feb 13-tf W. C. McMACKIN,

Dread and despair fall upon the community when a terrible epidemic, like the cholera or yellow fever, suddenly desolates our homes; yet, all the while, a more insidious, but no less fatal foe, enters thousands of households every year and carries off the flower of the family in the early flush of manly youth and budding womanhood. People call it presumption, or "decline." It is not, in most cases, the hereditary phthisis or consumption. If the lungs, which is the peculiar malady in climates like those of the British Islands and New England, but a sudden decay or arrest of the vital processes of nutrition. All the doctors agree that there is no remedy for this but COD LIVER OIL but they are constantly met by the obstacle of inability on the part of the patient to swallow or retain it. This repulsion is entirely overcome by SCOTT'S EMULSION OF THE OIL with the HYPOPHOSPHITES OF LIME AND SODA which is agreeable to the taste and an unequaled nutrient and tonic for the body nerve and brain.

Penitentiary Convicts.

Wilmington Star.

Mr. Norment, of Robeson, has introduced a bill in the Legislature for the purpose of relieving tax-payers of a part of their great burdens. It is to regulate the hiring out or farming out of convicts in the penitentiary. It provides that they shall be hired out to the highest bidder in bodies of ten or more. If, however, all shall not thus be hired or farmed out, then the same to be let to such individuals or corporations as will give bond for the proper care, maintenance and guarding of such prisoners. When not thus hired or used, then the same may be used and worked upon such public works as the State has an interest in: provided, that such surplus shall be distributed among the various roads in the proportion of the State's interest in each, and that no convicts shall be let to any road unless the private stockholders of the same shall remunerate and indemnify the State for such proportion of the cost of maintaining and guarding said convicts, as the private stock bears to the State's interest in said road.

We see no objection to such a law. Under the system of keeping them in the penitentiary much cost is entailed upon the tax-payers. If this can be avoided by Mr. Norment's bill we can see no reason why it should not be adopted. By aiding in the construction of public works much good can be done and crime can be safely and profitably utilized.

And only ask for No. 10,
Kept by the most ingenious of men,
And when his friends by chance drop in
Then forth he comes, Lord what a grin,
And to their wondering eyes displays
Such heaps of brackets and window shades.
His pictures are exposed to public view
And a variety of cord to suspend them too,
His looking glasses and toilet cases
Will help adorn your forms and faces;
Picture frames and mouldings too

His window cornices and lambrequins fine,
will make your rooms and parlor shine.

So now he bids your all adieu
And wishes a happy new year too.

LIVER

This important organ weighs but about three pounds, and all the blood in a living person (about three gallons) passes through it at least once every half hour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the pores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased, and Dyspepsia, Indigestion, Constipation, Headache, Biliousness, Jaundice, Chills, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow. MERRELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few doses upon yellow complexion or a brown dirty looking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking HEPATINE in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given.

LUNGS

The fatality of Consumption or Throat and Lung Diseases, which sweep to the grave at least one-third of all death's victims, arises from the Opium or Morphine treatment, which simply stupefies as the work of death goes on. $10,000 will be paid if Opium or Morphine, or any preparation of Opium, Morphine or Prussic Acid, can be found in the GLOBE FLOWER COUGH SYRUP, which has cured people who are living to-day with but one remaining lung. No greater wrong can be done than to say that Consumption is incurable. GLOBE FLOWER COUGH SYRUP will cure it when all other means have failed. Also, Colds, Cough, Asthma, Bronchitis, and all diseases of the throat and lungs. Read the testimonials of the Hon. Alexander H. Stephens, Gov. Smith and Ex-Gov. Brown of Ga., Hon. Geo. Peabody, as well as those of other remarkable cures in our book, free to all at the drug stores, and be convinced that if you wish to be cured you can be by taking the GLOBE FLOWER COUGH SYRUP. Take no Troches or Lozenges for Sore Throat, when you can get GLOBE FLOWER SYRUP at same price For sale by all Druggists.

BLOOD

Grave mistakes are made in the treatment of all diseases that arise from poison in the blood. Not one case of Scrofula, Syphilis, White Swelling, Ulcerous Sores and Skin Disease, in a thousand, is treated without the use of Mercury in some form. Mercury rots the bones, and the diseases it produces are worse than any other kind of blood or skin disease can be. Dr. PEMBERTON'S STILLINGIA AND YELLOW DOCK DELIGHT is the only medicine upon which a sound hope of recovery from Scrofula, Syphilis and Mercurial diseases is reasonably founded, and the cure Cancer. $10,000 will be paid by the proprietors if Mercury, or any ingredient not purely vegetable and harmless can be found in it.

DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint,

DYSPEPSIA AND SICK HEADACHE

Symptoms of a Diseased Liver.

PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.

AGUE AND FEVER

DR. C. McLANE'S LIVER PILLS, IN CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL.

For all bilious derangements, and as a simple purgative, they are unequaled.

BEWARE OF IMITATIONS.

The genuine are never sugar coated. Every box has a red wax seal on the lid, with the impression DR. McLANE'S [illegible]. The genuine McLANE'S LIVER PILLS bear the signatures of C. McLANE and FLEMING Bros. on the wrappers.

Insist upon having the genuine DR. C. McLANE'S LIVER PILLS, prepared by Fleming Bros., of Pittsburgh, Pa., the market being full of imitations of the name *McLane*, spelled differently but same pronunciation.

Rescued, Restored, Revived,

It is marvelous how the wounded outlines of the form are restored, the pale and hollow cheek vivified with the reddish hue of health; the muscular fibre braced and strengthened, the nervous system and the brain toned and invigorated by the steady use of Scott's Emulsion of Pure Cod Liver Oil and Hypophosphites of Lime and Soda. In fact the most elegant and effective preparation in the whole catalogue of medicine and in the disorders indicated by it of the consumptive, chronic coughs and the various scrofulous debilities it is a wonderful remedy. DAILY NEWS
SATURDAY, MARCH 1 1879

News Telegrams.

Congress.

WASHINGTON, Feb. 28.—SENATE—The Vice-President laid before the Senate a communication from David T. Corbin, a contestant for a seat in the Senate from South Carolina stating that he had been before the Senate two years actively asserting his right to a seat, having been elected by the Legislature of South Carolina and the committee on privileges and elections of the Senate having reported that he was duly and lawfully elected. He refers to the vote of Tuesday last by which the Senate refused to consider his case and says actions of certain Senators indicates his rights to a seat and will not be acted on at this session and it will be useless for him to return here next session to renew the contest, he therefore withdraws from the contest and says in conclusion that had he been admitted he might have been able among other duties to have rendered service to the colored people of South Carolina, now in need of assistance. It was read and laid on table,

After passing a number of private bills the Senate resumed the consideration of the bill making appropriations for the payment of arrears of pensions.

HOUSE.—In course of a short debate as to the priority of business, Atkins, of Tennessee, Chairman and Hale, of Maine, members of the committee on appropriations made statements as to the condition of business, to the effect that only four appropriation bills had passed into laws and there were eight more to be completed of which two fortification and army bills were in conference.

The post office bill was ready to be reported by the House appropriation committee. Blount, of Georgia, from the committe on appropriations then reported back post office bill with recommendation which was agreed to that the Senate amendments with two exceptions, that of Brazilian subsidy and classification mail matters be non concurred in gross. The committee also recommended that these two amendments be non concurred in but desired that they should be voted upon separately and sometime allowed for debate upon them which debate is now in progress.

Usurpation of Judicial Power by U. S. Courts of Virginia.

RICHMOND, VA., Feb. 28, 1879.—Indictment yesterday of five County Court Judges by United States Court for Western District of Virginia, at Danville, on charge of withholding from negroes the right of serving on juries was brought to attention of State Senate to-day by General Bradley Johnson, who introduced a preamble and resolution setting forth the fact of alleged resumption and exercise of unwarranted power, directing the Attorney General to take proper steps to bring said proceedings to adjudication by the Supreme Court of the United States in order that such lawless measures may be checked by competent authority now and in the future; authorizing the employment of counsel to assist the Attorney General in proceedings, and requesting Virginia's Representatives in Congress to move for a committee to inquire whether Hon. Alexander Rives, Judge of the aforesaid Federal Court has not been and is not now usurping judicial power for the unnecessary conflict between State and Federal authorities in enforcement of criminal laws of Virginia, thereby endangering the harmony, peace and good order of this commonwealth. The preamble and resolutions were adopted, only two votes being in the negative, both of which were republicans.

Periling the Interests of the State.

Charlotte Democrat.

A proposition has been set on foot to withdraw the appropriation of $70,000 annually made to the Western North Carolina Railroad, and to otherwise so cripple that work as to virtually suspend it. Against all such measures, in the name of that solemn compact entered into between the East and the West in 1874, when the fate of the East depended on a Constitutional Convention, the Observer enters its protest.—Raleigh Observer.

We are authorized to make any compact between the East and the West whereby the tax-payers should have $70,000 annually (besides other State debt aid) taken from their pockets to to complete a road that will not probably pay running expenses within the next quarter of a century, and which, if ever built, will belong to the first mortgage bondholders, although the money of the State built it. If such a compact was made it was done by politicians and office-seekers, and not by legal authority with the consent of tax-payers. We cannot believe that Eastern people promised the Western people that they would build them a railroad if they (the Western people) would aid in calling a Constitutional Convention to make reforms which every good man in the State admitted were necessary, and that that was the ground upon which the West supported the Convention movement.

But the appropriation alluded to should be stopped until the people are able to pay it, or let work on the big public buildings at Morganton and Goldsboro, the N. C. Penitentiary, and the proposed Governor's Palace at Raleigh, be stopped, and the building authority repealed. There is where the knife of economy ought to be made to cut, and it will not be "periling the interests of the State" to do so, but be a decided benefit, at least to the people who pay the taxes and support the Government.

Honest individuals are expected to economize in order to pay at least a part of their just debts before indulging in charities or luxuries. States and corporations should do the same.

Too Much Expense.

Charlotte Democrat.

It is better for us all to examine the figures of expense now and inaugurate reform when our party is in power, than to have them examined by our opponents in 1880 and the success of Democratic candidates then endangered. The fact is notorious that there is too much expense in and around and about the State Capitol and Capital.

How Mecklenburg is Assessed.

Charlotte Observer.

Mecklenburg county already pays annually $6,200 for the building of the Western North Carolina Railroad. Now it is proposed to put $6,000 additional upon her for the so called Cape Fear & Yadkin Valley Railroad. The worst of it is that the bill has already passed both houses, and has only to go back now to the House for concurrence in certain Senate amendments. Capt. Alexander made a square and manly fight against it in the Senate, but the representative of a county which pays big taxes does not stand much hand among the representatives of so many that pay next to none, when it comes to voting State money away.

The Death Rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it and often find too late that a fever or lung trouble has already set in. Thousands lose their lives in this way every winter, while had Boschee's German Syrup been taken, a cure would have resulted, and a large bill from a doctor been avoided. For all diseases of the throat and lungs, Boschee's German Syrup has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

To the Readers of this Paper.

Most of you are familiar with our "Bible Propositions" which have been published in this paper for over two months. We are glad to know, that several hundred of you have already availed yourselves of its benefits, and realized, to some extent, the wonderful virtues of the "Seven Springs Mass." Being conducted by it on account of the fairness of the proposition. We fully expected some few would demand the "Prize." Thus far not one has put in a claim. On the contrary, we have been the recipients of "Bibles," and other tokens of appreciation expressive of gratitude and acknowledgments for having called their attention to the remedy.

Our object for making that offer, was not merely to relieve headaches, for that which many regard as a case of headache, is in reality only a symptom of more serious and complicated diseases, it was therefore, more to reach these complaints, (the names of which we dislike to publish in news papers) Knowing if the Mass was properly used for headache, the patient would discover its great value for other diseases, and we are glad to say, the plan has succeeded well, as evidenced from hundreds of correspondents, and the rapidly increasing demand for the Mass—and is being sold by all Druggists.

COMMERCIAL FERTILIZERS.

What to Buy

That Commercial Fertilizers are essential to the successful production of crops can no longer be questioned, this has been settled by actual experience of the most successful farmers North and South, as well as upon the highest scientific authority.

The question therefore for the consideration of the farmer is, what to buy, in the shape of manure

The answer to this question is: What has closest to it, that grass stands before the farmers of North Carolina as a practical success? We answer, the

Pine Island Ammoniated Phosphate.

That it is a success we have certificates from leading farmers in every section where it has been used—men who have used Commercial Manures for years and make money by it.

We don't dare say it does not pay to make manure at home. It does pay! And no one can be successful in farming unless he makes manure. When he has made all the manure possible the deficiency must be supplied by Commercial Fertilizers, for no one who cultivates cotton for profit (and that is the only profitable crop that can be raised in our section) can make on his farm sufficiency of manure for his crops.

We offer the Pine Island Guano to supply this deficiency in the fullest confidence that it is the best and cheapest fertilizer sold in the State.

We have arrangements for supplying it in any quantity, in good strong sacks, so that it can be transported any distance without loss.

The season for planting is now nearly at hand and we hope to receive all orders early so that they can be booked for immediate shipment from the Rail Road Warehouse thus saving the expense of drayage and handling.

Most Respectfully,
M. T. LEACH & CO.

We desire to establish agencies at all the principal Rail Road Stations in the cotton section.

With good reliable agents satisfactory terms will be made.
